Expertomica Metabolite Profiling

Name of software (English): Expertomica Metabolite Profiling

Name of software (Czech): Expertomica metabolická analýza

Authors with affiliation: Urban Jan, Vaněk Jan, Štys Dalibor (*Jihočeská univerzita v Českých Budějovicích, Ústav fyzikální biologie*)

Popis : Program for LC/GC-MS measurement analysis. It works with text records of the measurement in Agilent ASCII, Thermo ASCII and JCAMP-DX ASCII formats. It performs filtration of random and systematic noise, peak detection and compound composition on the basis of probability theory. It enables visualization by graphs of detected peaks as well as noise parts
